

the education program that lead to where we currently are. Our average class size is 18 students and in all instances we have the ability to individually work with students who need remediation and acceleration.

In addition, we recently completed a renovation of our playground in which we added: 36,000 square feet of grass, replaced 30,000 square feet of asphalt, added an outdoor volleyball / tennis court and planted over 70 trees. Boulder Elementary school achieves at a comparable level with other schools in the county, especially schools in Clancy and Montana City, both of which educate students and enroll the majority of the kids in the county high school, also located in Boulder.

I strongly support the initiative of this group and specifically Mr. Lattin as they pursue the veteran's center for the town of Boulder. If there are any other concerns or questions you have about the elementary school in Boulder, please do not hesitate to call.

Respectfully,
